

**Darley's Plumbing, Inc.**  
**"Where Quality Counts"**

Carl L. Darley, President of Darley's Plumbing, Inc., began in the plumbing industry directly upon graduating from high school in 1981. After obtaining his licenses, he worked for several Jacksonville plumbing businesses before opening Darley's Plumbing, Inc. in 1993.

The company began operating out of Carl's house and due to steady growth has moved three times until its present location at 4472 Phillips Highway in Jacksonville, a 20,000 square foot warehouse/2,000 square foot office facility.

Carl was the sole employee in 1993 and concentrated primarily on service and work repair. Today, Darley's Plumbing, with its mobile fleet of more than 26 vehicles and a staff in excess of 70 employees dedicated to customer satisfaction, is able to perform a full array of plumbing needs. Carl says, "Our company is strict about the quality of our work; therefore, technicians are trained at our shop." A service manager and six service trucks are also available to get the job done right!

As the company grew, Carl brought in family members and the best plumbers to help him run this successful business: Carl W. Darley, Jr., vice president; Neida Darley, treasurer; Dale Darley, office manager; Mark Cannady, vice president of construction; and Gary Hall, new construction supervisor. The family's name is their reputation and they continue to strive for excellence.

Eighty-five percent of Darley's jobs are in new residential construction and fifteen percent in kitchen and bath remodel, repair, and installation of water softeners and water heaters. Darley's Plumbing supplies the best materials the industry has to offer from manufacturers such as Moen, Delta, Kohler, State Water Heaters, Mansfield, etc. Carl says, "We provide plumbing services for north Florida's best builders, small and large volume, custom and semi-custom. We especially enjoy the challenges of working in custom homes."

For additional information, you may call Carl Darley at Darley's Plumbing, 904-727-1484, [www.darleysplumbing.com](http://www.darleysplumbing.com)
